Dimensions 1,4 x 0,7 x 1,8 m
(length x width x height)

Technical Information

Maximum fall height < 60 cm
Security zone 15 m²
Number of children 8
Concrete required
No surface fixation available

Materials

Type of wood: larch and oak
Round wooden poles 10 and 12 cm
Sand bucket, tube and wheel in plastic
Polyester-coated sand crane
Galvanized chains

Product Description

Sand playground equipment for children aged 2 to 6. This sand mill has a sand crane with bucket and a green wheel. The round wooden poles have a diameter of 10 and 12 cm and are cut outside the heart. The vertical poles are in oak (because of the ground contact), the rest is larch. The sand bucket and the wheel are made out of plastic, the sand crane is polyester coated. All metal parts are treated against rust and polyester coated. All nuts and bolts are completely covered with flower-shaped protection caps.
