 **3-15 YEARS**

Product Information

Product type Combinations
 Certification EN-1176
 Dimensions 6,7 x 5,9 x 3,9 m
 (length x width x height)

Materials

Type of wood: larch; ladder rungs in ash
 12 cm thick round wooden poles cut outside the heart
 Roof boards with edge 22 mm thickness
 HDPE polyethylene sheet material 19 mm thick
 Floor boards 22mm thick
 Staircase with integrated rungs of 35 mm thickness
 Low stainless-steel slide with HDPE polyethylene sidewalls
 Climbing ladder with integrated rungs 40 mm
 Ropes and nets in 16 mm polypropylene rope with steel-wire reinforcement
 Non-slip rock wall
 Galvanized metal base supports
 Plastic clamps
 Metal parts treated against rust and polyester coated

 **2-16 PERSONS-HOURS**

Technical Information

Maximum fall height 2 m
 Security zone 74 m²
 Number of children
 Concrete required
 Surface fixation available (ref. B)

Product Description

A multifunctional wooden combination structure for children aged 3 to 15. This combination connects a Jumbo watch tower and a lower located Indian village via an ascending sloping platform with HDPE sidewalls. The Jumbo watch tower is a high climbing tower with a double platform and a saddle roof consisting of two floors accessible via a vertical climbing ladder with ladder rungs made of ash. A sloping platform provides access to the Indian village. The latter is composed of two platforms at the same height connected by a connecting net. One platform of the Indian village can be left via a low fireman's pole, the other platform can be reached via a rock wall or climbing net. A stainless steel slide also leaves from the platform with rock wall. A spiral fireman's pole leaves from the highest platform of the Jumbo watch tower. The lowest platform serves as a playhouse and resting area.
