Maximum fall height 0,60 m
Security zone 53,5 m²
Number of children 20
Concrete required
No surface fixation available

Materials

Type of wood: robinia
Stainless steel fixings
Flower-shaped protection caps
Galvanized chains

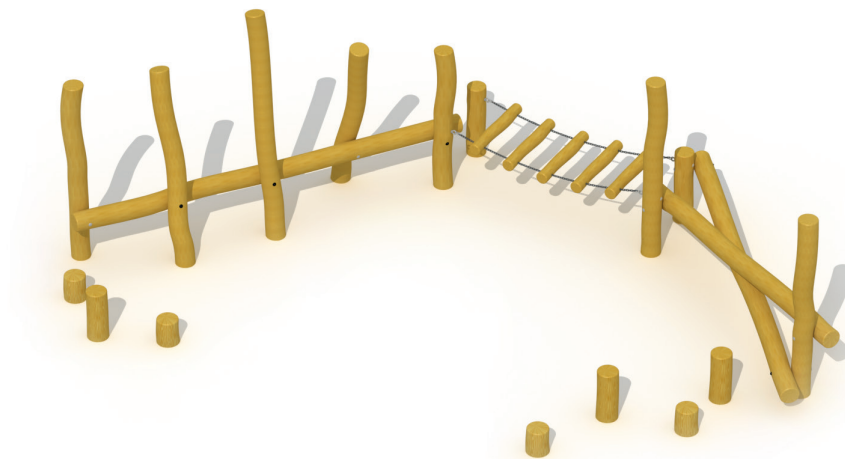

Product Description

Jungle trail in robinia for children aged 4 to 12. The trail combines step-bollards, balance beams and a wobbly footbridge. The wobbly footbridge is attached with stainless steel chains and has no railings. This is an additional challenge for the children to keep their balance. All nuts and bolts are completely covered by flower-shaped protection caps. This construction is fixed directly into the ground by using concrete.
