Dimensions      6,1 x 5,9 x 1,8 m  
                         (length x width x height)

### Technical Information

---

Maximum fall height    0,60 m  
Security zone            73,5 m<sup>2</sup>  
Number of children      30  
Concrete required  
No surface fixation available

### Materials

---

Type of wood: robinia  
Stainless steel fixings  
Flower-shaped protection caps  
Galvanized chains

### Product Description

---

Jungle trail in robinia for children aged 4 to 12. The jungle trail is a combination of the following elements: a mikado, a jungle, a balance beam, a wobbly footbridge, a balance trail and step-bollards. These elements are placed in a circle, this makes the transition between the different posts very easy. All nuts and bolts are completely covered by flower-shaped protection caps. This construction is fixed directly into the ground by using concrete.
