Larch square post 9 x 9 cm
Boards in larch

Technical Information

Maximum fall height 94 cm
Security zone 21 m²
Number of children 5
Concrete required
No surface fixation available

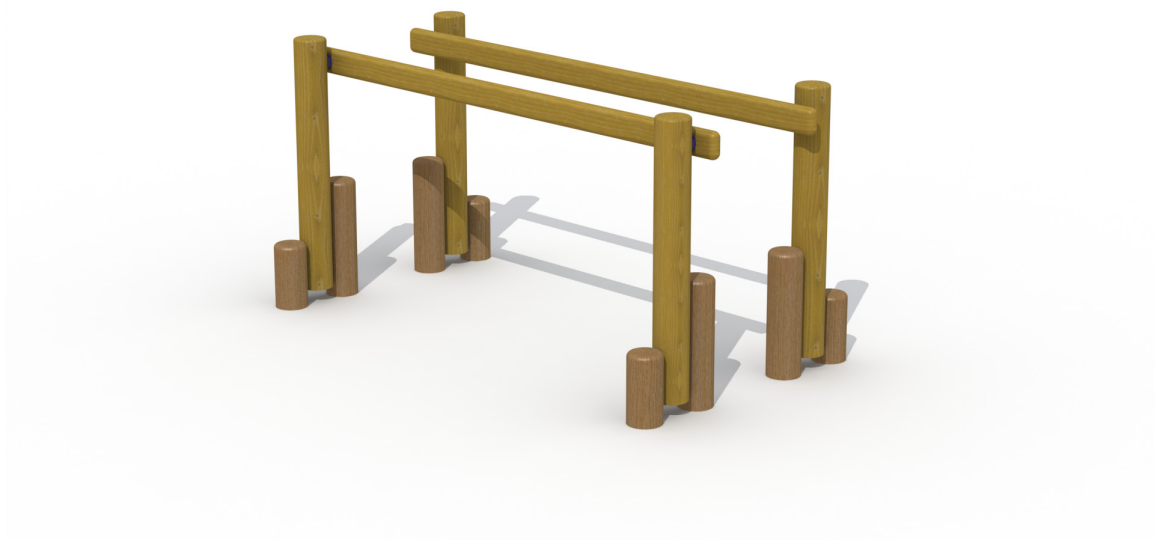

Product Description

Adventurous playground equipment for children aged 4 to 15. The playground equipment is made out of 4 vertical roundwooden larch poles with diameter 12 cm and 1 m height which are supported by 2 smaller roundwooden oak poles with the same diameter. Between these poles there are 2 supports of 2 m which are parallel to each other, with a distance of 80 cm. Children can go from one side to the other while supporting on the supports. All nuts and bolts are completely covered by plastic protection caps. The oak poles are fixed directly into the ground by using concrete.
