Galvanized metal base supports

---

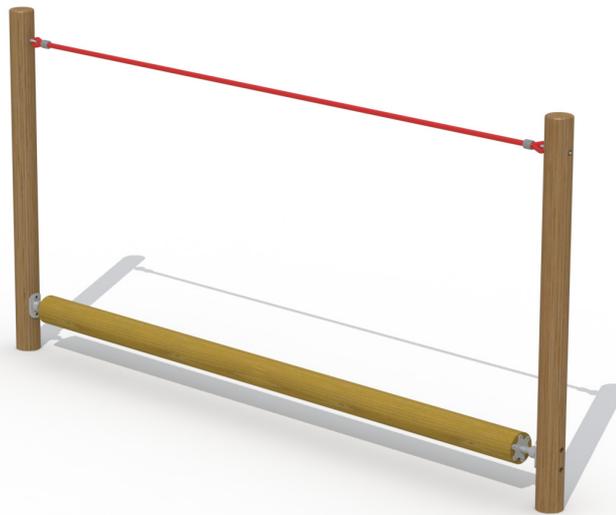

### Product Description

Adventurous playground equipment for children aged 4 to 15. The twist and shout has a twist beam in larch, connected to 2 horizontal larch poles. On top, parallel to the twist beam, is a steel-wire rope which people can hold when standing on the twist beam. The pivot is made out of stainless steel. The vertical poles are fixed into the ground by using metal base supports. All metal parts are treated against rust and all nuts and bolts are completely covered with plastic protection caps.
