## MOUNTAIN HUT

I3022019

S420

**3-12 YEARS**

**2-5 PERSONS-HOURS**

### Product Information

Product type Low wooden structures  
 Certification EN-1176  
 Dimensions 4,2 x 1,2 x 2,1 m  
 (length x width x height)

### Technical Information

Maximum fall height 1,40 m  
 Security zone 28 m<sup>2</sup>  
 Number of children 10  
 Concrete required  
 Surface fixation only

### Materials

Type of wood: larch  
 Lower girders in oak  
 Stainless-steel slide with HDPE polyethylene sidewalls  
 Vertical and horizontal square poles 9x 9 cm  
 Wooden boards platform floor 22 mm  
 Climbing ladder with integrated rungs 40 mm  
 HDPE polyethylene sheet material 19 mm thick  
 Non-slip rock wall  
 Plastic clamps  
 Ladder rungs in ash wood  
 Metal parts treated against rust and polyester coated  
 Option: Galvanized ground fixations

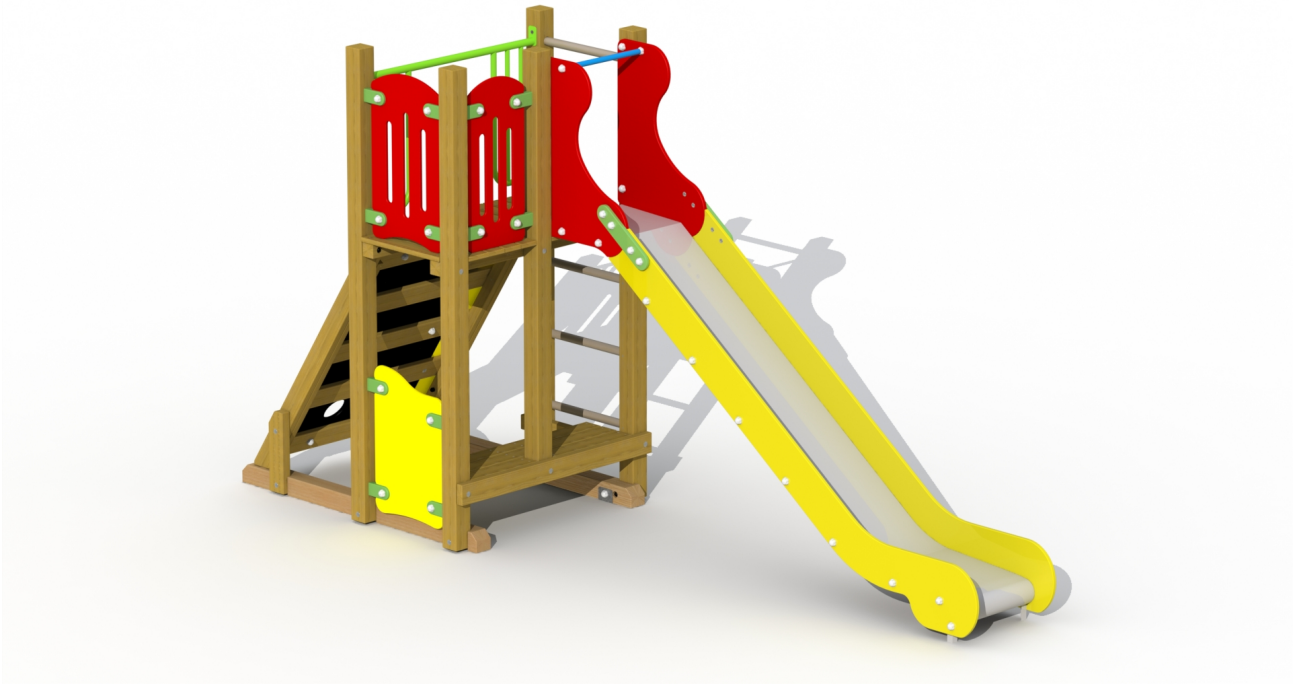

### Product Description

Climbing equipment with a rock wall on one side and a stainless steel slide and a vertical ladder on the other side for children aged 3 to 12. At the base is a playhouse with sitting bench. The mountain hut is ideal for already hardened surfaces because only the slide has to be fixed in the ground. The lower beams can be fixed into the ground with ground fixings (T600). Concrete is required for this. All metal parts are treated against rust and polyester coated and all nuts and bolts are completely covered with flower-shaped protection caps.
