 Polyethylene sheet material  
 Climbing ladder with integrated rungs 40mm thick

### Product Description

Crow's nest with climbing net, rope ladder and flag for children from 6 to 12 years. The climbing ladder has integrated rungs of 40mm thickness. The basket is made with metal tubes and the cross connection is made from U-profiles. The round wooden vertical oak beam has a diameter of 16 cm and is being installed directly into the ground by using concrete. All metal parts are polyester coated and all nuts and bolts are being covered by protection caps.
