 All metal parts are treated against rust and polyester coated
 Ropes and nets in 16 mm polypropylene rope with steel-wire reinforcement
 Climbing grips in plastic
 Polyester coated sliding bar and safety rails
 Stainless steel slide
 Galvanized base supports
 Flower-shaped protection caps

Product Description

A colorful playground equipment for children aged 3 to 6. This equipment can be climbed via a climbing wall in the shape of a caterpillar, a colorful net or an easy wooden staircase. It can be left by using a sliding bar, a spiral sliding or sliding tubes or a stainless steel slide. In the middle of the unit, the children are challenged to walk the bridge. The larch square poles (9 x 9 cm) are fixed into or onto the ground by using galvanized metal foot supports. All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps. The equipment is supplied partly preassembled.
