Flower-shaped protection caps  
Metal: inox en alloy steel  
Polypropylene rope

### Product Description

---

Detached colorful play equipment for children aged 1 to 2,5. The play equipment has two sides made of HDPE polyethylene in the shape of a masculine and a feminine pirate. The masculine pirate leans on a sword and has a parrot on his shoulder. The feminine pirate is waving her sword while she is leaning against a treasure chest. In her other hand she holds a black flag. The play equipment is mountable by a staircase made of HDPE polyethylene steps. All metal parts are treated against rust and all nuts and bolts are completely covered with plastic protection caps. This adventurous play equipment offers the children different play values. The children can slide down as much as they want and thanks to the child-friendly staircase and gangway they can try to climb to the top. The real adventurers can take a look under the platform where you can find a treasure chest. On the treasure chest they can play with movable plastic discs in different attractive colors. Thanks to the pirate theme, the children can let their imagination work.
