TREE TRUNK IN ROBINIA

Page 1/3

RO202

2-6 YEARS

1-3 PERSONS-HOURS

Product Information

Product type Eco-play
Certification EN-1176
Dimensions 0,7 x 0,3 x 0,8 m
(length x width x height)

Technical Information

Maximum fall height 0,62 m
Security zone 6 m²
Number of children 1
No concrete required
No surface fixation available

Materials

Type of wood: Robinia
Special steel spring 20 mm thick
All metal parts are treated against rust and polyester coated
Galvanized ground fixation

Product Description

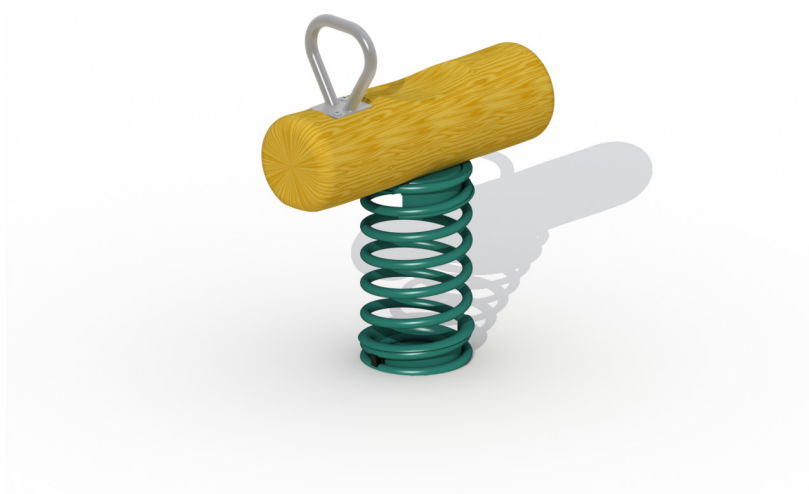

Spring mobile for children from 2 to 6 years. The spring mobile is made up of a polyester-coated spring that is mounted onto a galvanized ground fixation. On top, a tree trunk made of robinia is mounted. The spring is made of 20 mm thick spring steel. All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps. The spring is designed so that you can never get clamped, not even at the heaviest load. The elasticity of the spring is calculated so that the movement comes to its right even for the little ones.
