## 3

**2-6** PERSONS-HOURS

#### Technical Information

Maximum fall height 0,60 m Security zone 36 m<sup>2</sup> Number of children 15 Concrete required

No surface fixation available

### **Product Description**

Agility trail with horizontal rope ladder for children aged 4 to 12. The play equipment consists of 2 plaforms that you can reach via 3 step-bollards. The floor of the platform is made of larch, the rest of the play equipment is made of robinia. The platforms are connected to one another via a horizontal rope ladder. The rope ladder consists of ropes made of steel cable that are connected to one another with plastic connecting links. All nuts and bolts are completely covered by flower-shaped protection caps. This construction is fixed directly into the ground by using concrete.
