Technical Information

Maximum fall height	0,80 m
Security zone	20 m ²
Number of children	5
No concrete required	
Surface fixation available	

Product Description

A train engine with a plastic steering wheel, crawl tunnel and two built-in sitting benches. The top construction is made out of larch, the girders out of oak. This is a special version of the locomotive with an open roof. The locomotive comes preassembled. It can be connected to a passenger carriage (T201), tank wagon (T300) and a dining car (T400) by means of a connection bridge (T500). It can stand free on the ground without fixation. All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps.
