 Dimensions 5,8 x 4,4 x 2,8 m
 (length x width x height)

Materials

Type of wood: robinia

Technical Information

Maximum fall height 1,5 m
 Security zone 53,5 m²
 Number of children 10
 Concrete required
 No surface fixation available

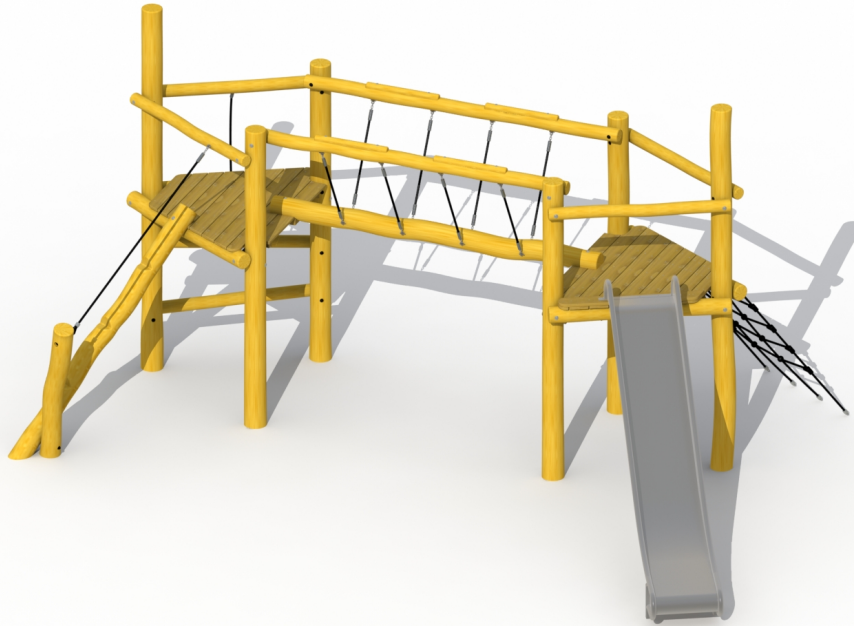

Product Description

A combination of 2 platforms that are connected by a balancing beam for children aged 6 to 14. The platforms are made of larch, the rest of the play equipment is made of robinia. One platform can be reached via a climbing rope or a balancing beam that goes upwards to the platform. The other platform can be reached via a climbing net and you can leave this platform with a stainless steel slide. All nuts and bolts are completely covered with flower-shaped protection caps. This construction is fixed directly into the ground by using concrete.
