Security zone 13 m²
Number of children 10
No concrete required
Surface fixation available

Materials

Type of wood: robinia and larch
Parts painted with ecological waterborne paints
Metal parts stainless steel

Product Description

Playground equipment for the little ones, from 2 to 6 years old, made out of robinia and larch wood. The play house has 2 benches and a table on the inside as well as 2 windows so children on the inside can make contact with children on the outside. The windows also make sure parents can still keep an eye on their children. The lumberjacks hut is delivered preassembled and because of the low fall height, shock-absorbing surface is not necessary. The lumberjacks hut can be both placed on a loose (type A) or paved underground (type B).
