Technical Information

Maximum fall height 0,65 m
Security zone 15 m²
Number of children
Concrete required
No surface fixation available

Product Description

Sand playground equipment for children aged 2 to 6. This sand mill has a sand crane with bucket and a green wheel. The round wooden larch poles have a diameter of 10 cm and are cut outside the heart. The vertical poles are in robinia (diameter 12/14 cm) (because of the ground contact). The sand bucket and the wheel are made out of plastic, the sand crane is polyester coated. All metal parts are treated against rust and polyester coated. All nuts and bolts are completely covered with flower-shaped protection caps.
