---

Type of wood: robinia or oak  
Special steel spring 20 mm thick  
All metal parts are treated against rust and polyester coated  
Flower-shaped protection caps

### Technical Information

---

Maximum fall height 0,65m  
Security zone 6 m<sup>2</sup>  
Number of children  
No concrete required  
No surface fixation available

### Product Description

---

Spring mobile for children aged 2 to 6. The spring mobile is made up of a polyester-coated spring that is mounted onto a galvanized ground fixation. On top, a figurative sitting element in the shape of a ladybug is mounted. The ladybug is made of robinia or oak and has red and black accents. The spring is made of 20 mm thick spring steel. All metal parts are treated against rust and all nuts and bolts are completely covered with flower-shaped protection caps. The spring is designed so that you can never get clamped, not even at the heaviest load. The elasticity of the spring is calculated so that the movement comes to its right even for the little ones.
